

# Evogen Professional General Purpose Sanitiser

➤ A unique eco-benign® sanitiser containing a natural anti-microbial active ingredient to offer an innovative way of sanitising and cleaning a wide variety of hard surfaces.

## ➤ Overview

Evogen Professional General Purpose Sanitiser is a concentrated, natural based sanitiser for dualaction cleaning and disinfection of all hard surfaces including food preparation areas.

The active substances are biosafe, natural and bidegradable.

The active substances in Evogen Professional Sanitiser concentrate have been tested according to according to BS EN 1276, BS EN 1040 and EN 14476 and proven to have broad range efficacy against bacteria and various enveloped viruses.

Designed specifically for use in commercial, residential, institutional and industrial applications to provide a safe, efficient and eco-benign® way of cleaning and sanitising hard surfaces.

➤ Evogen Professional General Purpose Sanitiser is supplied as a concentrate packaged in 5 litre containers, over packed in cases of 2 x 5 litres.

➤ For antibacterial efficacy, dilute in water at a rate of 1:20 for ready to use product (e.g. administer 25ml dose using a pelican pump into 500ml trigger spray bottle and fill with water). Remove gross soiling before sanitisation. Spray onto surface, after 5 minutes rinse if required or wipe clean using a microfiber cloth.

➤ For antiviral efficacy, dilute in water at a rate of 1:5 for ready to use product (e.g. administer 100ml dose using a pelican pump into 500ml trigger spray bottle and fill with water). Remove gross soiling before sanitisation. Spray onto surface, after 5 minutes rinse if required or wipe clean using a microfiber cloth.
